## ITALIANS MIX IN ALAMEDA DEFEATS ALAMEDA

LODI

LIVELY SCRIMMAGE BETWEEN THE NATIVES OF SUNNY ITALY.

ALAMEDA, Jan. 26.—Because the wife of Paulo Lopez claims she had been insulted by Manuel Marando and Marando in return claims he was painfully battered by Lopez and two compatriots, the local police station was the scene of a lively discussion in Italian last night, which came not resulting in another fight. The dispute was finally settled by Lopez having Marando arrested for disturbing the peace and Marando making a similar charge against Lopez. By the aid of Heinrich Umlau, who was called in to act as interpreter, a very complicated row was made known to the police.

Lopez claims that yesterday afternoon Marando insulted his (Lopez's) wife. Shortly after the alleged insult Marando was attacked while in bed by Lopez and two companions. At 10 o'clock last night the party of Italians went to the police station to add their difficulties. Judge Cone was called in and the complaints had been made and dismissed Lopez on his own recognizance, while Marando's bail was set at \$50 cash. The man had that amount of money but said he was afraid to go home for fear Lopez would again attack him. He was allowed to spend the night in the city prison and still occupies a cell in the jail.

The Lopez family and Marando reside at 2326 Pacific avenue. The trial has not been set, but will probably come before Judge Cone tomorrow. In the meantime Marando prefers to spend his time in jail.

NOTES OF INTEREST

FROM ALAMEDA CITY

ALAMEDA, Jan. 26.—Mr. Haskell's subject at the Unitarian Church last night at vespers was "The Secret of All Human Greatness." A. Heratio Cogswell sang and August Hinrichs played violin solos.

Elmer E. Johnson is in town for a few days from Seattle, where he is now located.

Miss Madge Haslett of New Zealand, who has been visiting relatives in this city, will leave for her home next Thursday. Her cousin, Shirley Haslett, will accompany her.

Mrs. Augusta Wels of 254 Alameda avenue is seriously ill at the German Hospital in San Francisco.

J. N. Beckmann, whose recent illness gave considerable concern to his many friends, is able to sit again. Although he is still weak he is improving rapidly.

The Transit Company has taken steps to improve the service on San Jose avenue. Two extra double-deck cars have been added to the division, and arrangements made to run fifteen minute trips.

No change will be made on the High street runs at present, as the travel on that line, it is claimed, will not warrant it.

The Wild Awake Club, composed of members of the Odd Fellows and Relief Riders, held its annual meeting at an interesting series of games Thursday evening at the small hall of the Odd Fellows building. There were six tables.

The prizes for gentlemen were won by Dr. William Tanian Lum and C. W. Damon, in the order named. Miss Edna Mezzegar was awarded the first ladies' prize and Miss Tat. Dicker the second.

While the original plan of the club was to meet every other Thursday evening, so great an interest has been taken in the sessions that it has been decided to meet weekly for the present.

HENRY MCCLOY VERY ILL.

Ex-policeman Henry McCloy, the well-known citizen of Oakland, is seriously ill at his home, 388 Thirty-fifth street, of pneumonia. Dr. Dunn is his attending physician.

## DEATH SUMMONS J. D. SCHLUETER

HE HAD BEEN A RESIDENT OF OAKLAND TWENTY-FIVE YEARS.

## FATHER CLEASON IS STRICKEN

WELL KNOWN PRIEST IS NOW IN A PRECARIOUS CONDITION.

John D. Schlueter died of apoplexy yesterday morning at his home, 849 Madison street. The stroke came while he was in the store of his son, Adolph H. Schlueter. He was at once removed to his home and medical attendance was summoned.

In spite of all efforts, however, he grew gradually weaker and finally passed away. The deceased was a native of Holstein, Germany. He was 75 years of age and had been a resident of Oakland 25 years. He leaves a widow and three sons.

IS HEAT REALLY A LUXURY.

An Old Timer Recalls the Period When It Was Generally Considered Such.

The stringency in the coal situation carries many lessons, but it is difficult for the present generation to profit by them that cannot be interpreted by present standards of living. A venerable citizen of Springfield, in the Republic of that city, makes interesting comparisons of what are now regarded as necessities with the conditions that made the people of the thirties and forties not only contented but even grateful. Then furnaces were almost unknown, even among the prosperous. The halls of houses were stone cold, even in Boston and New York. Families in winter had a fire in one room. Schoolrooms were miserably cold, and relays of children, with chilblains on their feet and colds in their heads, went to the stove to relieve their discomfort.

Chief Krauth of the Fire Department, after making a thorough investigation of the interior of the burned building, stated that he is of the opinion that the house was robbed and afterwards set afire. In the parlor he found where an attempt had been made to fire the house. A large hole was burned in the center of the floor, while the fire that destroyed the dwelling had been started in a closet, near the kitchen. In searching the house the chief observed that the place had apparently been ransacked prior to the fire. The contents of bureau drawers were scattered about as if a thorough search had been made for valuables.

Some months ago, when the same house was occupied by a family by the name of May, the barn was burned. Mrs. May declared at the time that it was the work of an incendiary.

The loss caused by yesterday's fire is estimated to be in the neighborhood of \$1000. A thorough investigation is being made by the police.

## HOUSE ROBBED AND BURNED

INCENDIARY BURGLAR WORKS SUCCESSFULLY IN ALAMEDA.

ALAMEDA, Jan. 26.—At an early hour Sunday morning the home of H. L. Coorum, at the corner of Post street and San Jose avenue, was partially destroyed by fire, apparently the work of an incendiary. No one was at home when the fire started, and before the Fire Department arrived on the scene, the house was nearly destroyed.

Chief Krauth of the Fire Department, after making a thorough investigation of the interior of the burned building, stated that he is of the opinion that the house was robbed and afterwards set afire. In the parlor he found where an attempt had been made to fire the house. A large hole was burned in the center of the floor, while the fire that destroyed the dwelling had been started in a closet, near the kitchen. ## CONFESSES TO EMBEZZLEMENT

FRANK PROUDFIT SAYS HE STOLE BUT WAS GOING TO REPAY MONEY.

The old story of a youth stealing from his employer, with the intention of later returning the money before his shortage was discovered, was told in the Police Court this morning in the case of E. A. Young, who accused nineteen-year-old Frank Proudfoot of embezzlement.

Mr. Young conducts a butcher shop and employed young Proudfoot to deliver meat and collect his bills. It was alleged that the youth failed to turn in his collections last Wednesday, amounting to \$4.75. A number of customers testified that they had paid Proudfoot small sums of money on that day. The youth himself did not deny that he had collected the money in question, but said:

"I fully intended to turn in the money before 6 o'clock, but when I got back to the shop I was asked for my collections, and not having the money was caught."

It later developed that Proudfoot had embezzled \$11.75 the week before, but avoided arrest by turning over his week's salary.

On account of Proudfoot's age and previous good character, he was sentenced to thirty days in the City Prison.

## HE WAS A VICTIM OF DELIRIUM TREMENS

Owing to a severe attack of delirium and fever, W. J. Holkin, a horseman at the Emeryville track, was removed yesterday to the Receiving Hospital.

Extensive preparations by the various committees on music, decoration, invitation and arrangement have been made and the affair promises to be most successful. This is the sixth year of the society's organization.

COLLECT AT THE HOUSE.

Pretty Girl—How much is this muslim? Counter-Jumper (who believes himself to be a master)—One kilo, a yard, mademoiselle.

Pretty Girl—Very well, Give me ten yards.

Counter-Jumper—That will be ten kisses, mademoiselle.

Pretty Girl—Prestidily. You can collect from my grandmother.

The Count in youth was very gay. His day was night, his night was day; But now the Count is old and gray,

And he must dye.

His dear delights have turned to dust, The arms he loved are red with rust, And though the Count is upper-crust,

He still must dye.

He owned the wrong half.

"Some years ago I moved from Minnesota to Georgia to try the effects of a more gentle climate," said Mr. H. F. Fowler.

"I went into the country and did a little farming, more as a diversion than for revenue. In fact, I came out loser in all my agricultural operations. But I had a lot of experiences and a good deal of fun out of my life in the South."

"It so happened that shortly entering upon my rural existence I became the possessor of several litters of fine young pigs, amounting to about forty, all told. I didn't want the worry of raising them, and I wasn't an expert in swineology anyway. This led me to make an offer to an old colored man, a tenant of mine, that if he would take the pigs and fatten them till they got to be good sized porkers, ready for slaughter, we would make an equal division of them."

"He jumped at the offer, and glibly promised to 'raise dem shoats till dey would weigh mos' 300 pounds erpiece.' Thes days went by, and every time I questioned old Jim as to the status of the pigs he would grin and assure me they were getting on splendidly. Finally, one day one of my other hands brought in word that Jim had killed the whole drove and sold the meat. I sent for him, and when he came before me, with sheepish air, I demanded of him an accounting for my hams."

"Yes suh, dat's right, boss; but you see hit's jes' dis way—yore ham of dem pigs jes' lay down and died!"—Washington Post.

MAKING SURE.

Mrs. Jones—I gave Lionel ten cents to put in the Christmas box for the heathen.

Mr. Jones—Huh! Do you think he'll do it?

Mr. Jones—Oh, yes. I gave him a quarter for doing it.—Judge.

WHO IS WRONG?

John Mitchell says the coal famine is of the result of collusion on the part of the mine operators and dealers, that dealers in different parts have combined to take advantage of the shortage to exact excessive charges he does not deny, but he says the famine is due to the fact that the production last year was short 22,000,000 tons. This should have been the reserve supply to meet the extra consumption of winter.

In other words, the strike is responsible for the famine. The question now is, Who is to blame for the strike?

As purveyors of an article of necessity, it was the duty of the operators to extract the coal from their mines, but they did not do it because they had a dispute with their men. The public—the sufferers from the strike—had no dispute with either party.

The striking miners refused to work because, as they alleged, they were underpaid, ill treated and subjected to unjust exactations and grinding oppressions. That their grievances were well founded has been conclusively demonstrated.

On the other hand the operators say they would have mined the coal if the strikers had not by persuasion, intimidation and the ostracism of the boycott prevented other men from taking the places they had abandoned. The operators assert that when the non-union men could not be coaxed or persuaded, they were frightened. This also seems well established.

So it seems that the mine operators—the coal barons, as we are wont to call them—were morally wrong, but legally right.

The striking miners had justice and moral right on their side, but they violated the law of the land and forcibly transgressed the legal right every man has to work for whom and for what he chooses.

Now, where are we to draw the line and fix the responsibility? Had the operators treated their men fairly there would have been no strike and no famine. At the same time, if the strikers had let the non-union men alone and not interfered with the operation of the mines, the coal would have been dug and the famine averted. But their grievances would not have been redressed—they would have been whipped and their organization broken up.

How this matter should be dealt with, and what should ultimately be done about it, is a question of right rather than statute law. John Brown struck at a moral wrong in defiance of the law. The moral wrong was a legal right, and for invading this legal right to abate a moral wrong he was hanged as a criminal. Yet his execution created a moral sentiment that in turn provoked a political convulsion, and the moral wrong was righted. John Brown's body is mouldering in the grave, but his soul is marching on.

MR. DUSTERBERRY'S PROTEST.

Ex-Supervisor Dusterberry, than whom there is no better citizen in Alameda county, writes to THE TRIBUNE to express his disapproval of legislative junks and unnecessary attaches. He is downright in his condemnation of the whole business. Mr. Dusterberry is mistaken, however, in assuming that THE TRIBUNE approves the unnecessary expenditure of public money or intended to apologize for it. What this paper did was to show that the Legislature is not as black as it is painted. We pointed out that this Legislature has simply followed the practice of the past, and explained the conditions and circumstances which have operated to produce and foster the abuse complained of. We also showed that the aggregate waste is not as large as one would think from the outcry. At least the Legislature is entitled to have the truth told. We all know the moral of giving a dog a bad name, and we are sure Mr. Dusterberry, being a just man, favors the truth. That is what we have tried to tell, leaving the reader to draw his own conclusion and form his own judgment. We will add, however, that we emphatically reiterate that any considerable number members of the Legislature are nationally dishonest.

A rascally Parasian Jeweler sold the late Charles Fair a set of pearls, resplendent but magnificently false, for a sum that an ordinary person would deem a fortune. Fair gave them to his wife, who treasured them as her dearest possession. Now that the couple are cold in death, it has been discovered that the pearls are only clever imitations, just the sort of sawdust gauds that Jennie Scrubbs and Mary Kitchen wear when they are doing the grand with Jack Plane and Locke Smith. Neither Fair nor his wife ever suspected that the gems were of the flash order. Now the question is, Were they really robbed? This is not a conundrum in morals, but one of fact.

Senator Bard's announcement that he will oppose the Cuban reciprocity treaty is welcome news for his constituents. They will back him up strongly on that proposition.

THE GOVERNOR'S MANSION.

than the strenuous war lord of Germany. This country is not spoiling for a fight, but it is not going to dodge one very smartly either.

The Sacramento Valley Drainage Association has taken a rather unpropitious time for asking for a large appropriation. Projects of this character must be matters of extreme urgency to get appropriations at this session. The Legislature has come in for a hot water bath at the very beginning, and is manifesting signs of smarting under the scalds. As a result there will be few outside appropriations or there will be a big log roll.

The New York Sun apologizes for Tillman by saying that Gonzales called him "a ruffian, a blackguard and a coward" in his paper. Well, what of it?—has not Tillman proved the truth of every accusation? But the epithets quoted are ancient history. They were used a good while ago, during the political campaign last summer. Tillman did not resent them then, but waited his chance to shoot his man down without giving him a show.

Californians are reminded once a year that D. O. Mills is a resident of this State. This reminder comes when he swears off his personal property taxes in New York. He lives in New York, and he keeps his personal property there, but for tax-shirking purposes only he is a citizen of California.

When it comes to shirking taxes, a good many millionaires don't blink at a little false swearing.

The Sultan of Jolo—pronounced Yolo—is not dead of cholera, but is coming to America with his suite, consisting of a few, very few, clothes, more wives and other impediments, more or less alive. After looking the matter over, perhaps it would be preferable if the Sultan would stay at home and send us the cholera.

ABOUT THIS TIME OF YEAR.

Now is the time when it's well to be heedful.

To have all your clothing sufficiently warm.

Not to insulate it cannot be helpful.

To carry umbrellas except in a storm.

Now is the season to wear mackintoshes.

A good one should keep you as dry as a chip.

Shoes with cork soles, at the least, or galoshes.

Now is the time to look out for the grip.

Once you are seized in its clutch unreeling.

Torn by its talons and pierced by its fangs.

Insatiable talent tormenting.

Never could add to its horrors a pang.

Racked till your bones ache right into the marrow.

Pinchers red heated no sharper could nip.

Snared by keen daggers, rolled under a harrow.

That's what you get when you're down with the grip.

Then, not the least of the ills that beset you.

Calomel, quinine, such a stuff.

Bags of hot water and thins that won't let you.

Rest for a moment—it's rougher than the grip.

Therefore be careful, the germ that is lying.

In wait never lets opportunity slip;

There are far plainer methods of dying.

We may all choose than to die of the grip.

EMPLOYEES OF THE WEST OAK.

LAND YARDS.

Just one week remains before the contest maintained by the Pacific Coast Railway Club is declared closed. By that time all papers pertaining to the construction, equipping and management of steam railways must be in the hands of C. C. Borton, secretary of the club.

\$250 will be divided in prizes for the best papers containing not less than two thousand words or more than six thousand words on the above subject. The contest is open to the members of any railway club in the United States.

The prizes will not be awarded from a literary standpoint, but according to their intrinsic value in the railroad world. The \$250 will be divided as follows: first prize, \$100; second prize, \$75; third prize, \$50 and fourth prize, \$25.

Already a goodly number of papers have been handed in as the time for the contest draws to a close. It is expected that many more will be added to this number. All matter should be addressed to C. C. Borton, 1213 Twelfth street, Oakland.

When the contest closes February 1, the papers submitted will be placed in the hands of five judges selected from among the prominent railway officials on the coast. These gentlemen will decide which papers are entitled to the prizes.

To eliminate all possibility of favoritism the papers will be numbered and the names withheld until the decisions of the judges have been made. The prizes will be awarded as soon after the papers are put in the hands of the judges as possible.

The contest is exciting considerable interest at the West Oakland yards and several papers have been submitted.

## OIL MAKES CHANGES IN SACRAMENTO SHOPS.

The introduction of oil as a fuel at the Southern Pacific shops at Sacramento has made some decided changes at that place and has necessitated a considerable outlay. Three large tanks for holding oil have just been completed. Two of the tanks hold 50,000 barrels of oil each and the remaining one holds 30,000 barrels of oil.

Pipes have been laid from these tanks running to all parts of the shops to feed the furnaces and apparatus burning oil and connections have been made with the round house so that the locomotives using oil may be fed.

Pipes have also been laid to the river so that the Southern Pacific boats may be charged with the oil. The oil stations on the Western Division are being rapidly completed and it is only a question of time when oil will entirely supplant coal.

## RAILWAY EMPLOYEES BALL WILL TAKE PLACE THIS WEEK.

The ball to be given by the Brotherhood of Railway Employees is to take place at Sacramento this coming Wednesday evening. Many of the West Oakland employees have signified their intention of attending and the affair promises to be a grand success. Nearly a thousand men constitute the membership of the local order at Sacramento and all are looking forward to make the affair the best ever given by the organization. George Estes, president of the Brotherhood of Railway Employees will be present as will other officials high in the order.

## OAKLAND IS TIED UP FOR MATERIAL CHANGES.

The ferry boat Oakland is tied up so that some very material changes may be made on her. In the first place her stairways will be changed so that they will be similar to those on the Berkeley. The restaurant and grill room will be moved into the hold, her seating capacity will be increased one-third, and she will be fitted with a huge oil tank. The changes are being done under the supervision of foreman F. D. Williams of the West Oakland ship yards.

## THIRTY BAGGAGE CARS WILL BE CONSTRUCTED.

The Southern Pacific Company has just placed an order for thirty baggage cars. The cars are to be sixty feet in length and are to be built at the Sacramento shops, instead of being constructed in the East. It is expected that within a short time another order will be added to this one.

# CARTER AND WILLE ARE TO FIGHT AT RELIANCE CLUB.

Bout is to Take Place Next Month—  
Britt After Corbett—Football Notes  
—Emeryville Racing.

The Reliance Athletic Club has signed an attraction for its next boxing night which should prove one of the greatest drawing cards the club has ever handled. Kid Carter, the Brooklyn middleweight, is to go fifteen rounds with big Jack Wille, the Chicago strong man. Carter has been seen several times in San Francisco, where he is still a great card. His defeat of Joe Walcott in the Mechanics' Pavilion a year ago is still fresh in the memory of the followers of the game.

The Reliance Club has tried every way to get a local man for Carter, Jack Johnson would not make the weight demanded by Carter and McVey could not accept until the latter part of the month. Tom Rilley, though as heavy at present as Carter, demanded that the Easterner make 155 pounds. The club finally wired Wille who accepted. Transportation was wired the Chicago way yesterday and he will leave Oakland tonight.

Wille has been much in demand lately. The San Francisco Club tried to get him to meet George Gardner, but the ex-strong man could not come on account of his engagement with Al Weing, whom he beat in Chicago.

In matching these hard-hitting heavies the club insures its members and patrons of a contest full of action and one in which neither man is apt to go out with a punch.

## BRITT ON THE TRAIL OF CORBETT

JIMMY MAY DECIDE NOT TO MEET PARKER BEFORE RELIANCE CLUB.

Jimmy Britt and Kid Parker had a meeting yesterday to make terms for their bout at the Reliance Club, scheduled to take place next month. But in view of the fact that Britt has a chance to fight Young Corbett, there is little hope that he will meet Parker in this city.

Britt has conceded weight to Corbett and has telegraphed the champion of his having done so. Now it is only a question of whether or not Corbett will dodge the issue and refuse to meet the local lad. A reply is expected from Corbett today relative to the match.

Since Britt is so near to a fight with Corbett there is little possibility of his meeting Parker. There is no doubt in the minds of many that Britt could defeat the Kid, but there is always the danger of injuring himself so that it would hurt his chances with Corbett.

## NOTES FROM THE RING.

Eddie Hanlon is doing faithful training for his match with Abe Attell. Yesterday about two hundred sports saw him in several fast bouts with his trainers. The odds have placed Eddie in the advantage, but it is thought that when the fighting time comes next Thursday night the boys will be about even in the betting ring.

Jack Clifford has about abandoned the idea of securing a match with Toby Irwin at Salt Lake and is back in the wilds of Montana again, where he will meet all comers.

All Neil is back from Los Angeles, where he fought a draw with Billy Woods. Neil says that he ought to have been given the decision as he hit Woods pretty freely during the twenty-rounds. The men fought before a \$3,000 house and Neil is well satisfied with his trip.

## PITCHER SCHMIDT WILL WORK FOR DENVER

SLAB ARTIST WILL NOT PLAY BALL WITH THE BROOKLYN AG-GREGATION.

Henry Schmidt, the slab artist who helped Oakland to win the baseball pennant last year, will play this coming season with the Denver aggregation instead of with Brooklyn.

In tossing away his chances to play in fast company Schmidt says that he will receive almost as much money from the Denver management and will do away with the chance of being turned adrift in the East by playing with the Denver team. This means that he will receive a salary of about \$2,500.

Schmidt denies that he received advance money from Brooklyn.

He was greatly due to the arm work of Schmidt, the other pennant takers from an Oakland tugstaff, and he was considered to be the best artist on Loh-

man's pitchers staff.

## BASEBALL NEWS.

The work of preparing Recreation Park for the opening of the baseball season next March will be commenced across the bay within a day or two. Some fine blue grass has been procured and the players will have a soft lawn to play upon the coming season. Pete Lohman is knocking the University of California baseball team into shape. Pete is under six weeks' contract and in that time he will turn out a winning team if the material is there.

A cement sidewalk has been built around the baseball grounds out at Golden Gate, and before the season opens the seating capacity of the grandstand will be increased and other improvements made.

## VAMPIRES WIN FROM THE ALBIONS

EASY VICTORY IN ASSOCIATION FOOTBALL GAME YESTERDAY AFTERNOON.

The game of Association football played on the Twelfth and Madison street grounds yesterday afternoon came easy to the Vampires, who defeated the Albions by the score of 6 to 1.

This is the third of a series of games played out in this city. The grounds were a little muddy, but a liberal use of sand dust remedied this. The contest was witnessed by a large crowd.

Those who played the star game for the Vampires were Schreel, Peterson, Buckley, and for the Albions were Hooker, Hewett, Gillerist.

## SAN FRANCISCO DEFEATS INDEPENDENTS

At the Alameda grounds yesterday afternoon the San Franciscos defeated the Independents in a game of Association football in an easy manner, the score being 8 to 1.

The Independents were kept on the defensive in both halves, and at no time was there a chance for them to rally enough to defeat their opponents.

The weakness on the part of the Independents seemed to lie with the men playing back, who could not resist the aggressive work of the San Franciscos.

## HEESEMAN'S SECOND TEAM DEFEATED THE OLYMPICS.

In a hotly contested game of baseball yesterday morning the second team of the Heesemans defeated the Olympics by the score of 2 to 1. The game was resplendent with star plays and was in doubt until the concluding inning.

Next Sunday the Heesemans will play the Elites.

KINDERGARTEN.

AN INTERESTING AFFAIR IS HELD  
IN MAPLE HALL FOR  
CHARITY.

The Mayflower Club gave a benefit entertainment Saturday evening at Maple Hall for the Good Will Kindergarten, which was a success in every way. The program consisted of two amateur performances, the first, "A Triumph of Science," having been written by Robert Ritchie, a clever young newspaper man, and the son of the late Rev. Robert Ritchie. The other farce is called "An Economic Dismembering." The plays were given under the direction of Mrs. Carrie French Sawyer. The casts of the two farces were as follows:

A Triumph of Science—Jack Hardcastle, on probation of the faculty; Leslie Oliver, Professor of Agriculture; Alexander Dabblinton, student of law; with an economical streak; Harold Oliver; Mrs. Alexander Dabblinton, although disagreeing acoustically; Richard Belcher; Mr. Blvd Player and Mrs. Blvd Player; recently married couple, Henry and Sophie Carter; detective who is barking under a misapprehension; Wanda Porter; Maggie, who, if she wasn't Irish, might have been "Frindle"; Roger White.

The following named members of the club acted as ushers: William Clark, chairman; Malcolm Campbell; Samuel Weston; George Keyes; Harry Gutierrez; Fred Whitney; Joseph Kendall; Harold Baxter.

Many prominent women of Oakland were interested in the affair, the panelists being Mrs. Robert Watt, Mrs. William Letts Oliver, Mrs. H. F. Carlton, Mrs. F. H. Hersey, Mrs. Russell Whitman, Mrs. Sarah B. Cheek, Mrs. Richard Chamberlain, Mrs. William Motter, Mrs. Marion Smith, Mrs. Philip E. Bowles, Mrs. Gladys Belcher, Mrs. F. S. Stratton, Mrs. F. I. Kendall, Mrs. G. E. Wilson, Mrs. R. H. Chamberlain, Mrs. P. U. Fowler, Mrs. G. E. Wilson, Mrs. F. G. Harper, Mrs. J. H. Brewer, Mrs. Fred Barbour, Mrs. G. L. Belcher, Miss Eva Powell, Miss Carolyn Oliver, Miss L. E. Moller and Miss Caroline Hawley.

BLUE MUD DEAL  
IS EXPLAINED

In an interview with George B. M. Gray the following was produced:

"OAKLAND, January 24, 1903.—George B. M. Gray, Oakland, Cal.—Dear Sir: In regard to the articles appearing in the Oakland Tribune and the San Francisco Examiner on the 22d inst. in reference to the sale of the Peralta Heights property that you made to H. D. Brown, will you tell me now or make the statement or thought that you were acting for the Realty Syndicate. F. M. Smith or any other person or corporation other than Mr. Brown. The price as stated in the papers was never quoted by us and we could not sell the property at that figure. The property at the price paid by you, namely \$4,750, we consider a great bargain and we would be glad to buy it at this price today. At the prices we first quoted you on the land, as it were, it would have been figured up to be \$6,450. Any reports about our receiving the property for \$2,600 or having it on our books for sal at that price are absolutely false. Yours very truly,  
WOODWARD, WATSON & CO.  
F. C. WATSON."

CAUGHT HAND IN A SAW.

S. Cabral, aged 12 years, while at work in a box factory, caught his hand in a circular saw. He was treated at the Receiving Hospital for a severe laceration of that member. He lives at 611 Madison street.

# EMMONS IS AFTER THE GERMANS.

Wants An Explanation of the  
Bombardment—Saloon Bill is  
Causing Much Talk.

SACRAMENTO, Jan. 26.—The Legislature entered upon its fourth week today and up to the present time only one bill has passed both Houses and that was rushed through in an emergency to provide \$50,000 for the urgent expenses of the Legislature.

Nearly all the Senators and Assemblymen were on hand, save those who had not returned from their trips to public institutions in various parts of the State.

Henceforth, both Houses will hold sessions in the morning and afternoon, and the committee work must necessarily be done at night.

## LEGISLATORS LEFT ALONE.

Up to Saturday both the Senate and House, during the sessions, were about as informal and unimposing deliberative bodies as ever assembled in halls of justice.

Today a change has taken place. There is no noise in either chamber save that made by the presiding officer's gavel or member when speaking. People who had no business on the floor were refused admission inside the rail, newsboys were prevented from disposing of their wares and business was dispatched with comfort and celerity.

## GERMAN BOMBARDMENT.

In the Senate today, Senator Emmons introduced the following resolution, touching on the conduct of the German vessels in Venezuela:

"The people of the State of California, represented in the Senate, and the Assembly concurring, do resolve as follows:

"That recent events on the American continent deserve our attention; and "Whereas, It has been the custom of this American republic to refrain, as far as possible from interfering with the governments of the Old World in their so-called diplomatic troubles; and

"Whereas, In observance of this national policy, we have seen a weak neighbor, without due cause, assaulted and bullied; and

"Whereas, The matter in dispute between our sister republic, Venezuela and her creditors, was in the process of an amicable settlement by means of a peaceful blockade and the submission of all matters to a tribunal of arbitration; and

"Whereas, While matters were so pending a peaceful solution, an unwarranted act of warfare was committed in the bombardment of Fort San Carlos, in Venezuelan territory; and

"Whereas, This first bombardment was again repeated by three war vessels of a foreign power upon the alleged reason that interior river trade was rendering said peaceable blockade useless; and

"Whereas, We, as American citizens, believe and hold dear the truth that the Monroe doctrine is not an idle dream, therefore, be it

"Resolved, That we, as citizens of the great Republic of America, of the United States, represented in this Legislature, instruct our Senators and request our Representatives to demand an explanation of this aggression, or, if the same be refused, that we at once, as a people, place the Monroe doctrine beyond future possible doubt."

The resolutions were referred to the Committee on Federal Relations.

## NON-SUITED FOR ALAMEDA.

A bill which has attracted the attention and aroused the surprise of the Alameda county delegation is that of Assemblyman Allen of San Francisco, which relates to Justices' clerks in counties having a population of more than 100,000. This proviso makes the measure applicable to Alameda and Los Angeles counties and the city and county of San Francisco. The bill provides that the Supervisors shall appoint a clerk of the Justices' courts, who shall give a bond of \$10,000 and

be liable to the state for the amount of the bond.

The bill aims to prevent the opening of saloons within one mile of schools in

the school districts and within two blocks of schools in incorporated cities and towns.

The first reference to this act was made in these columns Saturday last, and today the correspondent of THE TRIBUNE was in receipt of several letters from Oakland people, each letter asking for a copy of the Drew bill.

It may be mentioned the copies of bills are not available, for the reason that both Houses have interdicted the giving away of public property in future, because a few days ago, it was discovered that the supply of bills had been so exhausted that copies of certain measures were not available for members. The synopsis, however, of the Drew measure as published here is correct.

# BACK TO THE REFORMATORY.

BOY WILL NOT BE RELEASED BY  
MEANS OF HABEAS COR.  
PUS.

"If your contention is right, it would liberate almost every child in the reformatories," said Judge Ellsworth during the arguments in the habeas corpus proceedings instituted on 12-year-old Fred Peterson.

Peterson and three companions—Willie Silva, Joe Mathews and Manuel Mathews—were arrested on a charge of stealing pigeons at Hayward's. They were arrested at 1 o'clock in the afternoon and an hour later were taken before Justice T. J. Kirk, and in response to questions, Mr. Kirk said:

"The far-reaching effect of the bill was not considered when the bill was drawn. I am willing that the liquor business should be regulated, but I do not want to be fanatical about it. The bill was drawn by me at the request of the District Attorney of Fresno county. He thought a bill such as that would suit the purpose. I drew it on my lines, not thinking at the time the effect it would have upon a number of people now in business. I gave it to Mr. Drew of Fresno, and that gentleman introduced it. I have no desire to destroy business or to confiscate a man's property. The bill was fashioned after the law, which prohibits the sale of liquor within one mile of the University of California. It was thought that as that was a good law for the university, this would be a good one for the schools."

## THE GOVERNOR'S LEAVE.

Senator Lukens of Oakland will soon introduce in the Senate a resolution granting to Governor Pardee leave of absence of sixty days from the State next year, to enable him to attend the Louisiana Purchase Exposition at St. Louis.

## WANT TO KEEP STATE LIBRARY.

The publication of articles in several of the newspapers referring to the removal of the State Library from this city to the University of California, has aroused a great deal of interest and has spurred citizens up to make an attempt to have the books of the library made more use of by the people of this city. The idea of losing the State Library, they say, will not be tolerated, and Mayor Clark says that he will call a public meeting for the purpose of organizing to resist the transfer referred to.

## MC'LYMONDS AND WILKINSON ARE COMING.

Superintendent of Schools McClymonds of Oakland is expected here tomorrow night. He will come to attend a meeting of the Committee on Education, of which Assemblyman Mattos is chairman. At this meeting there will be a thorough discussion of the compulsory education bill which has been introduced in the House by Assemblyman Foster, and in the Senate by Senator Knowland. This bill also provides for the caring for truant and incorrigible children, who are to be sent to what are to be known as parental schools. Supt. McClymonds has sent an intimation here to the effect that he does not understand the measure and that he would like to receive some light upon it.

It is quite likely that Prof. Wilkinson of the Deaf, Dumb and Blind Asylum at Berkeley will be present at the meeting in question. The professor has had his attention directed to the clause of still another bill affecting schools, which provides among other things that where there are five or more deaf or dumb children attending a school, a special teacher shall be provided for their instruction.

Prof. Wilkinson, it is understood, is not in favor of having such a class established, for the reason that he thinks it would be impossible to secure competent teachers, as also because he does not think that the articulate system of instruction, which would be used, would be best for the children who would need instruction.

## HARD ON SALOONS.

The saloon regulation bill, which was introduced into the House late last Saturday by Assemblyman Drew of Fresno, if it should pass, would have a disastrous effect upon the liquor business of Alameda county and, indeed, of the whole State. It would close up the saloons in Centerville, Mission, Niles, Sunol, Tesla, Castro Valley and several other towns in Alameda county, cause the abandonment or the moving of some saloons on the San Leandro road, though it would not have a serious effect upon the saloons now established in Alameda, Berkeley and Oakland.

## SAVANNAH LOCATION.

The bill aims to prevent the opening of saloons within one mile of schools in

the school districts and within two blocks of schools in incorporated cities and towns.

## WILL NOT GO TO INSANE ASYLUM.
